

# plainblack

## ...agency hosting

Plain Black's Agency Hosting package is designed for independent designers, design agencies, and advertising agencies that want to offer the power of WebGUI to their clients, but don't want to deal with the hassles of hosting. This allows you to serve your clients' needs while still making some recurring revenue through hosting.

### HOW IT WORKS

- You host a minimum of five clients with Plain Black.
- Each of your clients gets a hosting package.
- Plain Black provides you with unlimited web-based technical support.
- You get invoiced \$15 per month per site; you invoice your clients whatever you think is fair.
- Your client never knows of Plain Black's involvement.

### THE PACKAGE INCLUDES:

- \* WebGUI
  - o Installed and tuned
  - o All upgrades are free and automatic
- \* 500 megabytes of drive space
- \* 10 gigabytes of bandwidth usage per month
- \* 25 email accounts
  - o Accessible via POP3, IMAP4, or webmail
  - o Unlimited aliases
  - o Unlimited forwarders
- \* Web statistics (generated nightly)
- \* DNS hosting and management
- \* Site and server monitoring
- \* Nightly backups
