

# | plain**black** ...training

Put the power of WebGUI in the hands of your staff. Whether it be through documentation or on-site visits, Plain Black will see to it that your staff is equipped to enter the world of WebGUI!

## ONSITE TRAINING

We tailor our on-site training programs to suit your organization's specific needs. This helps you train your staff on what they need to know, without wasting time or money. Training sessions can cover a range of topics related to WebGUI, such as content management or administrative functions. In addition, Plain Black staff can teach sessions on HTML/CSS or PERL. You can also benefit by having a troubleshooting session to fine tune your WebGUI website. Whatever your needs, Plain Black can help.

## WEBGUI LIVE

WebGUI Live webinars are the perfect marriage of product demonstration and personal training. Each webinar is presented by a member of the Plain Black staff who are available after the presentation to answer your specific questions as well as provide live demonstrations. Not only do you receive detailed training on a specific WebGUI topic, you gain from one on one interactive instruction. Gain insight into WebGUI while receiving immediate responses to your questions, and walk away all the more knowledgeable for attending.

## WEBGUI USER'S CONFERENCE

The WebGUI User's Conference is an annual event specifically designed to give you an insider's advantage. Network with community members and pick the brains of the people who create WebGUI. Plain Black staff and expert guest presenters provide three days of in-depth information on all things WebGUI.

## WEBGUI BOOKS

The *WebGUI Primer* is a guide to content management specifically written to aid the novice WebGUI user. The *WebGUI Content Managers Guide* contains over 290 pages of detailed content management instruction.
