

Services

Plain Black Corporation offers a full line of web-related professional services. Who better to turn to for help with your WebGUI site than the people who write the software?

Our experienced and talented staff provide services related to:

- ▶ **Development:** our developers have decades of combined experience to produce a product that exceeds your expectations.
- ▶ **Design:** we'll give you the fresh look you need to catch the eye of today's media weary society.
- ▶ **Training:** onsite and online training can be customized to meet your needs.
- ▶ **Support:** we offer numerous support options, ranging from staffed message boards to telephone support.
- ▶ **Translation:** stay visible in today's global market by reaching out in other languages.
- ▶ **SSL Certificates:** we can help keep your site and its users secure.
- ▶ **Advertising:** capitalize with pay-per-click and impression advertising.

Plain Black Corporation is the developer of the open source content management system WebGUI. Plain Black provides many professional services related to WebGUI such as training, professional development, and design. Our staff is happy to answer your questions.

DEVELOPMENT

Plain Black has been in the business of development and consultation since 2001. Our experienced team pushes themselves to go beyond just getting the job done within the amount of time and budget specified. We add the little bells and whistles that take an application from useful to mission critical. Organizations of all sizes have turned to Plain Black to develop custom human resource applications, custom event registration forms, and full featured HRIS systems. Whatever you need, Plain Black's developers will deliver a product to exceed your expectations.

DESIGN

Plain Black's design staff can give you the identity and visual appeal needed to grab the attention of today's media weary society. Whether it be a fresh web design, new print promos, or fully interactive presentations, we have what you need. Our talented design staff has years of industry experience and can improve your organization's image on and off-line.

TRAINING

Plain Black offers a number of WebGUI training options to put the power of WebGUI in the hands of your staff. We offer both onsite and online training options, as well as an annual users conference.

Onsite training classes are customized to meet your specific needs. A Plain Black staff member will spend time at your organization's facility to personally train staff.

Plain Black provides remote online training to fulfill your needs in the most convenient fashion. Training presentations are customized to your specifications, and you determine the length of each training session.

The WebGUI Users Conference is an annual event that brings together WebGUI experts from around the world. In addition to attending dozens of educational presentations, you receive a unique opportunity to collaborate and network with other WebGUI users.

SUPPORT

Plain Black provides professional WebGUI support. We offer many support options, ranging from staffed message boards to phone support. Looking for the ultimate in client care? Check out Rockstar Support. Read our Plain Black Support brochure or visit us online for more information.

TRANSLATION

The world is becoming smaller and smaller each day. Doing business internationally is not so much a question of if, but when. Making the effort to reach out to your audience in their language is a way of demonstrating that you're up to date. We can help you reach across the language barriers separating you from your audience.

SSL CERTIFICATES

Plain Black understands how important it is to protect information in today's technologically savvy world. Why pay hundreds of dollars more per year for that protection than you need to? Plain Black's volume of customers has allowed us to create a partnership with CompleteSSL. This means that Plain Black customers get an additional 10% off their already low prices.

ADVERTISING

Promote your services and products with pay per click and impression advertising. Increase search engine visibility, encourage visitors to your site and reap the benefits!
